

FW0E70

**HEAVY DUTY
CAST FIFTH WHEEL**

FW0E70

Extra Capacity

**A rugged fifth wheel for
high vertical loads and
off-road applications.**

FWOE70

HEAVY DUTY CAST FIFTH WHEEL

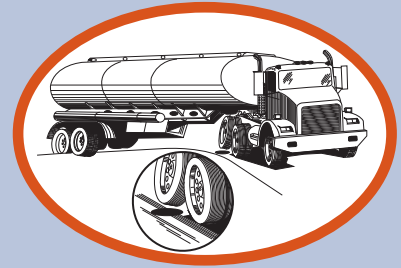

Greater Performance

Designed for operating conditions, applications and loads which may require a fifth wheel with greater capacities than standard fifth wheels.

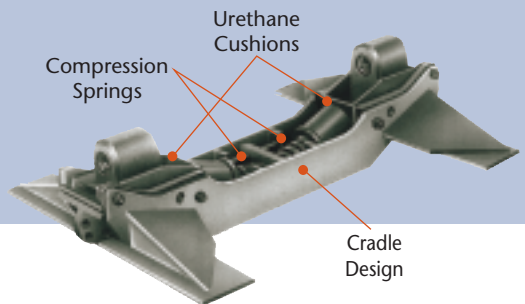

Available with ISO/DIN mounting brackets, slider mountings and the unique Kompensator mount.

Kompensator Mountings

When torsionally rigid trailers encounter uneven terrain they do not flex to relieve the twisting force between the tractor and trailer which places great strain on tractor and trailer frames which can lead to cracks in the frame and premature tire wear.

A compensating fifth wheel, with its unique cradle design, provides torsional stress relief and reduces torque and twist transfer through the fifth wheel.

Cast top plate machined flat. Provides greater load bearing area. Reduces friction and uneven wear.

Cast in grease grooves.

Grease fittings lubricate fifth wheel bracket contact area.

Easy to remove top plate.

Manual secondary lock.

Locks require only 136 kg to couple. Available for 2" or 3.5" SAE kingpins.

Easily accessible slack adjustment is infinitely adjustable throughout its adjustment range.

Capacity:

- Up to 100000 kg Gross Combination Weight
- Up to 36000 kg vertical load
- 240 kN D-Value (3.5" version)
- Top plate weight = 148 kg
- EC type approval no. e11 00-000050/51

Warranty:

- 3 Years or 500000 km Warranty
- See European Fifth Wheel Commercial Warranty for details.
