Fits: SC

AZ06010416

827539

Fits: MN

Valeo is one of the most progressive manufacturers of truck parts, with as many as 64 R&D centers around the world. Their extensive research and development has also led to the reduction of clutch noise and vibrations, along with better gear changes. This means that even in the most hostile of operating environments, driver comfort is never sacrificed.

In addition, the manufacturer's 40% share of the truck OE clutch market makes it a no-brainer to choose Valeo clutches.
